

MONDAY PUSH		CHEST • SHOULDERS • TRICEPS • ABS
1	Incline dumbbell press	3 × 6–10
2	Machine chest press	3 × 8–12
3	Seated dumbbell overhead press Stop just short of shrugging at the top.	3 × 8–12
4	Dumbbell lateral raise Light. Shoulders DOWN, never shrug. Neck burning = too heavy.	3 × 12–20
5	EZ-bar overhead triceps extension	3 × 10–15
6	Cable crunch ABS Hold weight and ADD to it over months. Abs only grow if you load them.	3 × 10–15

WEDNESDAY PULL		BACK • BICEPS • ABS
1	Lat pulldown Full reach overhead every rep. This is your width exercise.	3 × 8–12
2	Seated cable row Pull to your belly button, elbows close to your sides.	3 × 8–12
3	Incline dumbbell curl	3 × 8–12
4	Rear-delt fly machine Elbows at shoulder height. Never above.	2 × 15–20
5	Dumbbell hammer curl	2 × 10–15
6	Hanging or lying leg raise ABS Slow, no swinging. Curl your hips up at the top — that is the rep.	3 × 10–15

FRIDAY LEGS + SHOULDERS + ARMS		QUADS • HAMS • DELTS • ARMS
1	Leg press Deep, knees to about 90°. First 3 weeks: 2 sets only.	3 × 8–15
2	Seated hamstring curl	3 × 10–15
3	Dumbbell lateral raise Second dose on purpose — shoulder width is your fastest win.	3 × 12–20
4	Dumbbell bicep curl	3 × 10–15
5	Overhead triceps extension	3 × 10–15

No time or no energy? Do only the two shaded exercises and leave — 12 minutes, and it still counts. Never skip the whole day.

WHY 17% SHOWED NO ABS 17% is not six-pack territory — abs start showing around 12–15%, a real six-pack near 10–12%. And scales and calipers read 5–8 points low, so 17% was probably low 20s. You were never at 17%, and you had no ab muscle to reveal.	HOW HARD — THE BIG ONE Last set of every exercise: go until you cannot get another clean rep. Earlier sets, stop 1–2 short. Short sessions only work if the last set is genuinely hard.	ADDING WEIGHT Hit the top rep number on every set? Go up next week. +5 lb per dumbbell • +10 lb machines. 6–12 reps on big lifts, 12–20 on small ones.
YOUR ARMS — UNEVEN AND GROWING Every dumbbell set: weaker arm first, then match its exact rep count with the strong one. Never do extra. A dominant arm is normal and it evens out over months.	STRETCH IS WHERE GROWTH IS 3 seconds lowering, full stretch at the bottom, no bouncing. It is also why this list picks overhead extensions, incline curls and the seated leg curl.	EVERY DAY Protein 1 g per lb of goal weight. Creatine 5 g. Salt your food. Sleep 7–9 h. Losing slowly is what protects the 450 to 730 and your arms.
